# ENSURING A CONSISTENT FLOW OF CLEAN & HYGIENIC LINEN

## ...thanks to highly efficient laundry detergents

Whether you are processing laundry for your hotel, restaurant, care home, ... it all comes down to one thing: to guarantee a consistent supply of fresh, hygienic linen for your guests or residents. It is a serious responsibility which requires not only a thorough knowledge of the legal requirements, but also of the textiles, the stains and the suitable wash processes.

**And here, Clover Christeyns can step in.** Our laundry chemists have formulated highly efficient detergents, which will allow you to process laundry quickly and efficiently with care for the textiles.

To meet your needs, our laundry specialists have carefully selected a specialised range for non-delicate textiles, called CARETEX.

# Laundry Liquids

## Liquid products | Detergents

**CARETEX BIO****BIOLOGICAL LAUNDRY DETERGENT**

CARETEX Bio is a low alkaline, mild, biological detergent. CARETEX Bio is effective between 30-80°C for both white and coloured fabrics.

10 Litre | 20 Litre

**CARETEX NON-BIO****LAUNDRY DETERGENT**

CARETEX Non-Bio is a low alkaline, mild, non-biological detergent. CARETEX Non-Bio is effective between 30-80°C for both white and coloured fabrics.

10 Litre | 20 Litre

**CARETEX WASH ULTRA****PREMIUM PHOSPHATE-FREE ENZYMATIC DETERGENT**

CARETEX Wash Ultra is a phosphate-free laundry detergent with a very high performance. It is suited for washing of coloured and white fabrics, from 30°C to 60°C. Developed for an optimized dosage even in very hard water. For all wash and machine systems. Suitable for automatic dosing.

10 Litre | 20 Litre

Liquid products | Degreaser

## CARETEX DEGREASE

### DEGREASER

CARETEX Degrease contains a special blend of nonionic surfactants and orange terpenes that provides excellent detergency properties. It is free of optical brightener and contains orange terpenes as a natural solvent. Effective removal of natural oily and greasy stains. Synergistic booster for all washing processes. Suitable for all water hardness conditions.

10 Litre | 20 Litre

## Liquid products | Bleaching Agents

**CARETEX X-TEND****HIGH STRENGTH LOW TEMPERATURE DESTAINER**

CARETEX X-Tend is designed to be used as a concentrated laundry destainer and bleaching agent for white and colour fast fabrics. CARETEX X-Tend is effective between 30-55°C. Not suitable for wool, nylon or fabrics labelled dry clean only.

10 Litre | 20 Litre

**CARETEX BRIGHT+****PAP-BASED BLEACHING AGENT**

CARETEX Bright + is a bleaching agent for stain removal on white and colour-safe laundry. CARETEX Bright + has a very good bleaching power at a temperature between 30°C and 55°C.

10 Litre | 20 Litre

**CARETEX BRIGHT CL****CHLORINE BLEACHING AGENT**

CARETEX Bright CL is a Chlorine bleach liquid for temperature range between 20°C and 40°C. Strong bleaching performance to remove the most difficult stains. Suitable for both cotton and polyester-cotton. Suitable for automatic dosing.

10 Litre | 20 Litre

## Liquid products | Softeners

**CARETEX SOFT****FINISHING AGENT**

CARETEX Soft is a fabric softener that ensures an optimal softening effect and facilitates the ironing. It diminishes static electricity build-up. It leaves no stains on coloured fabrics and no deposits in ironers. Suitable for cotton and polyester-cotton. Suitable for automatic dosing. To be dosed in the last rinse cycle.

10 Litre | 20 Litre

**CARETEX PERLA****PREMIUM FABRIC SOFTENER**

CARETEX Perla is a fabric softener with long lasting fragrance that ensures an optimal softening effect and facilitates the ironing. It diminishes static electricity build-up. It leaves no stains on coloured fabrics and no deposits in ironers. The fragrance is released at the time of use. Suitable for automatic dosing. To be dosed in the last rinse cycle.

10 Litre | 20 Litre

## Liquid products | Neutraliser

**CARETEX NEUTRA****NEUTRALISING AGENT**

CARETEX Neutra is used as an additive to neutralise alkalinity traces. It decreases the risk of yellow staining on the textile. Based on citric acid. Suitable for both cotton and polyester-cotton. Suitable for automatic dosing

10 Litre | 20 Litre

## Liquid products | Starch

**CARETEX FIN****SYNTHETIC STARCH**

CARETEX Fin is a finishing agent based on synthetic starch, that will ensure a stiffer handle of the fabrics. CARETEX Fin has a very fine particle size, leaving no deposits in ironers. Optimal starching effect at short cycle times. No staining on coloured fabrics.
